

**OmniMD Inc.**

---

# **ONC Health IT Certification**

## **Mandatory Disclosures**

Transparency and Cost Information

## 1. OVERVIEW AND PURPOSE

This document constitutes the Mandatory Disclosures required by the Office of the National Coordinator for Health Information Technology (ONC) for Health IT certified under the ONC Health IT Certification Program. These disclosures are provided in accordance with 45 CFR Part 170 and are intended to inform purchasers, users, and the public about the capabilities and costs of OmniMD’s certified Health IT products.

OmniMD Inc. is an emerging healthcare information technology company offering products listed on the Certified Health IT Product List (CHPL), maintained by ONC. These mandatory disclosures cover all certified certification criteria applicable to OmniMD V.18.0 and V.20.

### DISCLAIMER

*This Health IT Module is compliant with the ONC Certification Criteria for Health IT and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.*

## 2. MANDATORY DISCLOSURES BY CERTIFICATION CRITERION

The following sections provide mandatory disclosures for each certified certification criterion, including a description of capability, associated costs and fees, additional technical details, and applicable delivery modalities.

### § 170.315(a)(1) Computerized Provider Order Entry – Medication Orders

| Field                        | Details  |
|------------------------------|--|
| <b>Description</b>           | This functionality enables users of CEHRT to place Medication orders electronically. (Multum Drug Database Version 276 and above)                            |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.    |
| <b>Additional Details</b>    | The additional cost will be for Drug Database (Multum Cerner – Per Provider/Per Month), EPCS (e-Prescription for Controlled Drugs – Per Provider/Per Month). |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.  |

### § 170.315(a)(2) Computerized Provider Order Entry – Laboratory Orders

| Field                     | Details   |
|---------------------------|---|
| <b>Description</b>        | This functionality enables users of CEHRT to place Lab Orders electronically.   |
| <b>Costs &amp; Fees</b>   | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b> | One-time lab interface setup fee paid by the lab.   |

|                              |   |
|------------------------------|---|
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface. |
|------------------------------|---|

**§ 170.315(a)(3) Computerized Provider Order Entry – Diagnostic Imaging Orders**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables users of CEHRT to place Imaging orders electronically.   |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | One-time imaging center interface setup fee paid by the imaging center.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

**§ 170.315(a)(4) Drug-Drug, Drug-Allergy Interaction Checks**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables CEHRT users to be alerted for potential drug interaction alerts before they commit the orders to the patient’s chart. The e-Rx subscription to the CEHRT provides access to Multum Drug Database Version 276 and above utilization review alerts during the process of ordering medications. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.   |
| <b>Additional Details</b>    | The additional cost will be for Drug Database (Multum Cerner – Per Provider/Per Month), EPCS (e-Prescription for Controlled Drugs – Per Provider/Per Month).  |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

**§ 170.315(a)(5) Demographics**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables CEHRT users to capture demographic information of the patient. There is integration with the PM system and the PM system is the source for capturing demographic data as part of the patient intake process. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.   |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

### § 170.315(a)(12) Family Health History

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables the user to electronically record, change and access a patient’s family health history.  |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

### § 170.315(a)(14) Implantable Device List

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables capture of patient implantable device data as history in the chart. The certified EHR interacts with FDA Web Access GUDID to incorporate the device ID and Unique Device Identifiers for the implantable device. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.   |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

### § 170.315(a)(15) Social, Psychological, and Behavioral Data

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables capture of social, psychological and behavioral data in a question and answer format in the patient chart.                     |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

### § 170.315(b)(1) Transitions of Care

| Field                   | Details   |
|-------------------------|---|
| <b>Description</b>      | This functionality enables a user to electronically create and transmit a transition of care/referral summary in C-CDA R2.1 format, which includes encounter diagnoses, immunizations, cognitive status, functional status, the reason for referral, and referring or transitioning provider’s name and office contact information. The solution follows C-CDA R2.1 and Direct standards. |
| <b>Costs &amp; Fees</b> | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.   |

|                              |  |
|------------------------------|--|
| <b>Additional Details</b>    | The additional cost will be for One-Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month). Additional cost for HIE integration and other registries. |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.  |

**§ 170.315(b)(2) Clinical Information Reconciliation and Incorporation**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables a user to electronically reconcile problems, medication allergies, medications, and immunizations listed in an incoming transition of care/referral summary C-CDA R 2.1 format against the patient’s medication list, problem list, medication-allergy list, and immunization list in the EHR.         |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.   |
| <b>Additional Details</b>    | The additional cost will be for Drug Database (Multum Cerner – Per Provider/Per Month), AMA (CPT and ICD Annual Royalty fees – Per Provider/Per Year). The additional cost will be for One-Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month). Additional cost for HIE integration and other registries. |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

**§ 170.315(b)(3) Electronic Prescribing**

| Field                        | Details  |
|------------------------------|--|
| <b>Description</b>           | Complete with drug-drug interaction checks, allergy checking and plan-specific formularies, this functionality enables a user to prescribe and route prescriptions directly from the exam room to the patient’s preferred pharmacy for faster fulfillment. The solution uses RxNorm and NCPDP standards, and the Surescripts infrastructure for prescription transmission to the pharmacy. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.  |
| <b>Additional Details</b>    | The additional cost will be for Drug Database (Multum Cerner – Per Provider/Per Month), EPCS (e-Prescription for Controlled Drugs – Per Provider/Per Month). Relied-upon software: Cerner Multum Vantage.  |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.  |

**§ 170.315(b)(9) Care Plan**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables users to create a care plan electronically and export it in C-CDA R 2.1 format.  |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

**§ 170.315(b)(10) Electronic Health Information Export**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables a user to electronically create an export file(s) with all of a single patient’s electronic health information in USCDI V3format that represents the most current clinical information about each patient. It includes clinical data defined in the USCDI V3 , the reason for referral, and the referring or transitioning provider’s name and office contact information. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.   |
| <b>Additional Details</b>    | The additional cost will be for One-Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month).  |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

**§ 170.315(c)(1) Clinical Quality Measures (CQMs) — Record and Export**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables a user to electronically capture and export all the data necessary to calculate each of OmniMD’s supported Clinical Quality Measures (CQM), including the codification of CQM exceptions and exclusions. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.   |
| <b>Additional Details</b>    | Additional cost may apply for submission of data by OmniMD.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

**§ 170.315(c)(2) Clinical Quality Measures (CQMs) — Import and Calculate**

| Field                        | Details  |
|------------------------------|--|
| <b>Description</b>           | This functionality enables a user to electronically import all the captured data needed to calculate each of the OmniMD-supported Clinical Quality Measures (CQM), and to calculate each certified CQM using the Quality Reporting Document Architecture standard. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.  |
| <b>Additional Details</b>    | Additional cost may apply for submission of data by OmniMD.  |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.  |

**§ 170.315(c)(3) Clinical Quality Measures (CQMs) — Report**

| Field              | Details  |
|--------------------|--|
| <b>Description</b> | This functionality enables a user to electronically create a data file for transmission of Clinical Quality Measures (CQM) data according to the Quality Reporting Document Architecture standard. |

|                              |   |
|------------------------------|---|
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | Additional cost may apply for submission of data by OmniMD.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

**§ 170.315(d)(1) Authentication, Access Control, and Authorization**

| Field                        | Details  |
|------------------------------|--|
| <b>Description</b>           | This functionality enables the certifying EHR to provide access to electronic health information to a permitted user based on unique identifier(s) (e.g., username or number). |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.                      |
| <b>Additional Details</b>    | None.  |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.  |

**§ 170.315(d)(2) Auditable Events and Tamper-Resistance**

| Field                        | Details  |
|------------------------------|--|
| <b>Description</b>           | This functionality enables the certifying EHR to record actions related to electronic health information, record audit log status, and record encryption status in accordance with the applicable standards. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.  |
| <b>Additional Details</b>    | None.  |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.  |

**§ 170.315(d)(3) Audit Reports**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables the certifying EHR to enable a user to create an audit report for a specific time period and to sort entries in the audit log according to each of the data elements specified in the standards. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.   |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

### § 170.315(d)(4) Amendments

| Field                        | Details  |
|------------------------------|--|
| <b>Description</b>           | This functionality enables the certifying EHR to enable a user to select the record affected by a patient’s request for amendment and perform the required capabilities. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.                |
| <b>Additional Details</b>    | None.  |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.  |

### § 170.315(d)(5) Automatic Access Time-Out

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables the certifying EHR to automatically stop user access to health information after a predetermined period of inactivity and requires user authentication in order to resume or regain the access that was stopped. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.   |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

### § 170.315(d)(6) Emergency Access

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables the certifying EHR to permit an identified set of users to access electronic health information during an emergency.           |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

### § 170.315(d)(7) End-User Device Encryption

| Field                   | Details  |
|-------------------------|--|
| <b>Description</b>      | This functionality enables the certifying EHR technology that is designed to locally store electronic health information on end-user devices to encrypt the electronic health information stored on such devices after use of the technology on those devices stops. |
| <b>Costs &amp; Fees</b> | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.  |

|                              |   |
|------------------------------|---|
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface. |

**§ 170.315(d)(8) Integrity**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables the certifying EHR to support the HIPAA security rule implementation specifications for integrity.                             |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

**§ 170.315(d)(9) Trusted Connection**

| Field                        | Details  |
|------------------------------|--|
| <b>Description</b>           | This functionality enables the certifying EHR to provide a level of trusted connection: (1) encrypted and integrity-protected message transport, or (2) a trusted connection for transport to the end users. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.  |
| <b>Additional Details</b>    | None.  |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.  |

**§ 170.315(d)(11) Accounting of Disclosures**

| Field                        | Details  |
|------------------------------|--|
| <b>Description</b>           | This functionality enables the certifying EHR to record disclosures made for treatment, payment, and health care operations in accordance with the standard specified. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.              |
| <b>Additional Details</b>    | None.  |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.  |

**§ 170.315(d)(12) Encrypt Authentication Credentials**

| Field              | Details   |
|--------------------|---|
| <b>Description</b> | This functionality enables the certifying EHR to encrypt stored authentication credentials in accordance with applicable standards. |

|                              |   |
|------------------------------|---|
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

### § 170.315(d)(13) Multi-Factor Authentication

| Field                        | Details  |
|------------------------------|--|
| <b>Description</b>           | This functionality enables the certifying EHR to provide multi-factor authentication through multiple elements of the user’s identity with the use of industry-recognized standards. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.                            |
| <b>Additional Details</b>    | None.  |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.  |

### § 170.315(e)(1) View, Download, and Transmit to Third Party

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables patients to view, download or transmit their health information in the patient portal that was sent from OmniMD EHR. The data encompasses the USCDI V3. Any time there are patient chart changes, the EHR automatically sends an update of the chart in C-CDA R2.1 format to the patient portal for the patient to view. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.   |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Available via OmniMD Patient Health Portal (web).   |

### § 170.315(e)(3) Patient Health Information Capture

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables users to capture patient health information into the chart to support better patient engagement in their care. The patient portal can be utilized to provide this data in addition to EHR functions. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.   |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Patients may submit data via OmniMD Patient Health Portal (web). Clinicians may view submitted data via the OmniMD web-based browser interface.   |

**§ 170.315(f)(1) Transmission to Immunization Registries**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality electronically transmits the recorded or changed immunization information to a state registry using the HL7 Immunization Messaging standard. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.       |
| <b>Additional Details</b>    | Additional cost for HIE integration and other registries.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

**§ 170.315(f)(2) Transmission to Public Health Agencies – Syndromic Surveillance**

| Field                        | Details  |
|------------------------------|--|
| <b>Description</b>           | This functionality enables the EHR to electronically create syndrome-based public health surveillance information for electronic transmission in accordance with the HL7 PHIN Messaging standard for Syndromic Surveillance. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.  |
| <b>Additional Details</b>    | Additional cost for HIE integration and other registries.  |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.  |

**§ 170.315(f)(4) Transmission to Cancer Registries**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables the EHR to create a cancer CDA R2.1 document and submit to cancer registries.  |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | Additional cost for HIE integration and other registries.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

**§ 170.315(f)(5) Transmission to Public Health Agencies – Electronic Case Reporting**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables the EHR to consume and maintain a table of trigger codes to determine which encounters may be reportable and transmit to public health agencies. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.                   |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

**§ 170.315(f)(7) Transmission to Public Health Agencies – Health Care Surveys**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables the EHR to create a Healthcare Ambulatory Survey CDA R2.1 document and submit to the CDC.                                      |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | Additional cost for HIE integration and other registries.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

**§ 170.315(g)(2) Automated Measure Calculation**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables the certifying EHR to record and calculate objective measures.   |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | Additional cost may apply for submission of data.   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.   |

**§ 170.315(g)(3) Safety-Enhanced Design**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables the certifying EHR to meet the summative usability guidelines for end users.   |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Not applicable to a specific interface modality.  |

**§ 170.315(g)(4) Quality Management System**

| Field                        | Details  |
|------------------------------|--|
| <b>Description</b>           | This functionality enables the certifying EHR through the use of a Quality Management System (QMS) in the development, testing, implementation, and maintenance. |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.        |
| <b>Additional Details</b>    | None.  |
| <b>Applicable Modalities</b> | Not applicable to a specific interface modality.   |

### § 170.315(g)(5) Accessibility-Centered Design

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables use of certified EHR technology for users with disabilities. OmniMD adheres to WCAG 2.0 standards.                             |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Not applicable to a specific interface modality.  |

### § 170.315(g)(6) Consolidated CDA Creation Performance

| Field                        | Details  |
|------------------------------|--|
| <b>Description</b>           | This functionality certifies the CDA R2.1 performance for all CDA R2.1 documents generated from the certified EHR to ONC prescribed standards.                             |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.                  |
| <b>Additional Details</b>    | The additional cost will be for One-Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month). Additional cost for HIE integration and other registries. |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.  |

### § 170.315(g)(7) Application Access – Patient Selection

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables patients to connect with the Open APIs of OmniMD.  |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | None.   |
| <b>Applicable Modalities</b> | Available via OmniMD FHIR API (web-based).  |

### § 170.315(g)(9) Application Access – All Data Request

| Field                     | Details   |
|---------------------------|---|
| <b>Description</b>        | This functionality enables patients to connect with open APIs with OmniMD EHR and request data from USCDI V3.   |
| <b>Costs &amp; Fees</b>   | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b> | None.   |

|                              |  |
|------------------------------|--|
| <b>Applicable Modalities</b> | Available via OmniMD FHIR API (web-based). |
|------------------------------|--|

**§ 170.315(g)(10) Standardized API for Patient and Population Services**

| Field                        | Details   |
|------------------------------|---|
| <b>Description</b>           | This functionality enables patients to connect with open APIs with OmniMD EHR and request data from USCDI V3.   |
| <b>Costs &amp; Fees</b>      | Monthly Subscription Fees / Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost. |
| <b>Additional Details</b>    | HAPI Server.  |
| <b>Applicable Modalities</b> | Available via OmniMD FHIR API (web-based).  |

**§ 170.315(h)(1) Direct Project**

| Field                        | Details  |
|------------------------------|--|
| <b>Description</b>           | This functionality allows the certified EHR to connect with any HIE and demonstrate interoperability using Direct protocols. OmniMD has Direct Project integration with Updax. |
| <b>Costs &amp; Fees</b>      | None.  |
| <b>Additional Details</b>    | The additional cost will be for One-Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month).   |
| <b>Applicable Modalities</b> | Available via OmniMD web-based browser interface.  |

**3. CERTIFIED CLINICAL QUALITY MEASURES (CQMS)**

OmniMD's certified Health IT products support the following Clinical Quality Measures (CQMs). All measures listed below are certified for record and export, import and calculate, and report functions.

**Applicable Criteria:** § 170.315(c)(1) Record and Export | § 170.315(c)(2) Import and Calculate | § 170.315(c)(3) Report

| CMS ID        | Clinical Quality Measure Title   |
|---------------|--|
| <b>CMS82</b>  | Maternal Depression Screening  |
| <b>CMS128</b> | Anti-Depressant Medication Management  |
| <b>CMS159</b> | Depression Remission at Twelve Months  |
| <b>CMS161</b> | Adult Major Depressive Disorder (MDD): Suicide Risk Assessment                         |
| <b>CMS169</b> | Bipolar Disorder and Major Depression: Appraisal for Alcohol or Chemical Substance Use |
| <b>CMS149</b> | Dementia: Cognitive Assessment   |

|               |  |
|---------------|--|
| <b>CMS129</b> | Prostate Cancer: Avoidance of Overuse of Bone Scan for Staging Low Risk Prostate Cancer Patients                 |
| <b>CMS2</b>   | Preventive Care and Screening: Screening for Depression and Follow-Up Plan                                       |
| <b>CMS50</b>  | Closing the Referral Loop: Receipt of Specialist Report  |
| <b>CMS69</b>  | Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan                                |
| <b>CMS75</b>  | Children Who Have Dental Decay or Cavities   |
| <b>CMS90</b>  | Functional Status Assessments for Congestive Heart Failure   |
| <b>CMS117</b> | Childhood Immunization Status  |
| <b>CMS153</b> | Chlamydia Screening for Women  |
| <b>CMS165</b> | Controlling High Blood Pressure  |
| <b>CMS166</b> | Use of Imaging Studies for Low Back Pain   |
| <b>CMS74</b>  | Primary Caries Prevention Intervention as Offered by Primary Care Providers, including Dentists                  |
| <b>CMS122</b> | Diabetes: Hemoglobin A1c (HbA1c) Poor Control (> 9%)   |
| <b>CMS123</b> | Diabetes: Foot Exam  |
| <b>CMS134</b> | Diabetes: Medical Attention for Nephropathy  |
| <b>CMS142</b> | Diabetic Retinopathy: Communication with the Physician Managing Ongoing Diabetes Care                            |
| <b>CMS167</b> | Diabetic Retinopathy: Documentation of Presence or Absence of Macular Edema and Level of Severity of Retinopathy |
| <b>CMS131</b> | Diabetes: Eye Exam   |
| <b>CMS132</b> | Cataracts: Complications within 30 Days Following Cataract Surgery Requiring Additional Surgical Procedures      |
| <b>CMS133</b> | Cataracts: 20/40 or Better Visual Acuity within 90 Days Following Cataract Surgery                               |
| <b>CMS143</b> | Primary Open-Angle Glaucoma (POAG): Optic Nerve Evaluation   |
| <b>CMS22</b>  | Preventive Care and Screening: Screening for High Blood Pressure and Follow-Up Documented                        |
| <b>CMS65</b>  | Hypertension: Improvement in Blood Pressure  |
| <b>CMS124</b> | Cervical Cancer Screening  |
| <b>CMS125</b> | Breast Cancer Screening  |
| <b>CMS127</b> | Pneumococcal Vaccination Status for Older Adults   |
| <b>CMS130</b> | Colorectal Cancer Screening  |
| <b>CMS139</b> | Falls: Screening for Future Fall Risk  |
| <b>CMS52</b>  | HIV/AIDS: Pneumocystis Jiroveci Pneumonia (PCP) Prophylaxis  |
| <b>CMS135</b> | Heart Failure (HF): ACE Inhibitor or ARB Therapy for Left Ventricular Systolic Dysfunction (LVSD)                |
| <b>CMS144</b> | Heart Failure (HF): Beta-Blocker Therapy for Left Ventricular Systolic Dysfunction (LVSD)                        |
| <b>CMS164</b> | Ischemic Vascular Disease (IVD): Use of Aspirin or Another Antiplatelet  |
| <b>CMS56</b>  | Functional Status Assessment for Total Hip Replacement   |
| <b>CMS66</b>  | Functional Status Assessment for Total Knee Replacement  |

|               |   |
|---------------|---|
| <b>CMS158</b> | Pregnant Women That Had HBsAg Testing   |
| <b>CMS138</b> | Preventive Care and Screening: Tobacco Use – Screening and Cessation Intervention |
| <b>CMS154</b> | Appropriate Treatment for Children with Upper Respiratory Infection (URI)         |
| <b>CMS147</b> | Preventive Care and Screening: Influenza Immunization                             |
